

From October 2024 (Reiwa 6)

Designated Garbage Bag System will begin

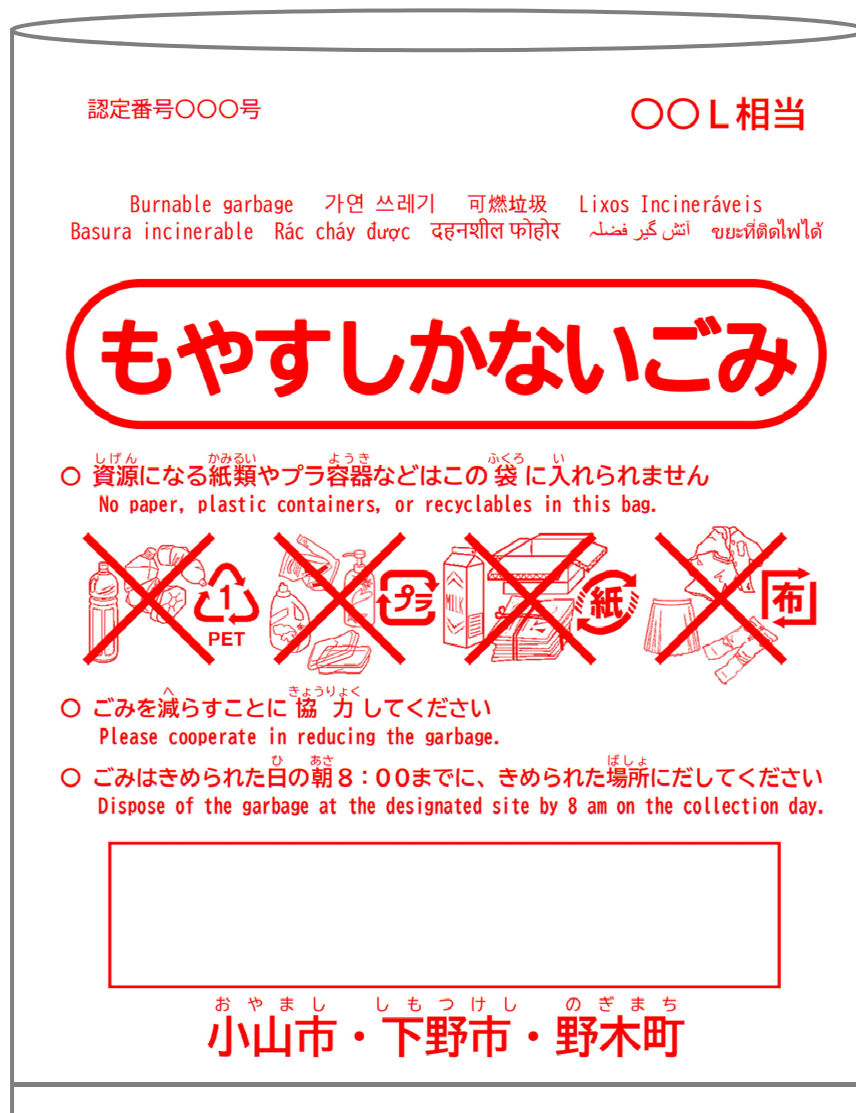

for combustible waste (Burnable garbage)

○ What is the designated garbage bag system?

When disposing of garbage, we must use the garbage bags designated by Oyama City.

Additionally, the term for “combustible waste” will change to “Burnable garbage”

Design of the garbage bag

Types of waste to be disposed of using designated garbage bags:

Only “Burnable garbage”

※The current garbage bags can continue to be used for plastic containers, non-burnable waste, and hazardous waste.

When the system starts:

From 1 October 2024 (Reiwa 6)

Current bags can be used until 31 March 2025 (Reiwa 7)

Current bags cannot be used from 1 April 2025 (Reiwa 7)

“Burnable garbage” will not be collected unless it is in the designated bags.

Types of designated garbage bags:

Size	1 5 L、3 0 L、4 5 L、7 0 L
Shape	Square or With handles

Where to purchase designated garbage bags:

They will be available at supermarkets, drugstores, home centers, convenience stores from September 2024 (Reiwa 6).

The price of the bags are not set by Oyama City. Please inquire at the stores after September.

Please separate recyclable waste such as plastic containers, paper, PET bottles.

The designated garbage bag system will be implemented to encourage waste separation and reduce “burnable waste.”

For any questions about the designated garbage bags or if you wish to participate in an explanatory meeting, please visit the Oyama City website.
