

iPhone Users

If you have children studying at different schools, you have 2 patterns

※ Since the URL to access differs for each school, be sure to follow one of the patterns below.

Patter A

Log in/out each time and choose the access point.

① Follow the initial registration instructions for 「花子さん HANAKO SAN」  who is studying in elementary school to make your initial registration.

② Scan the QR code for login which is on the lower left side of the Initial registration procedure. Display the login screen and add the Login screen to the home screen. **Change the name to your elementary school name.**

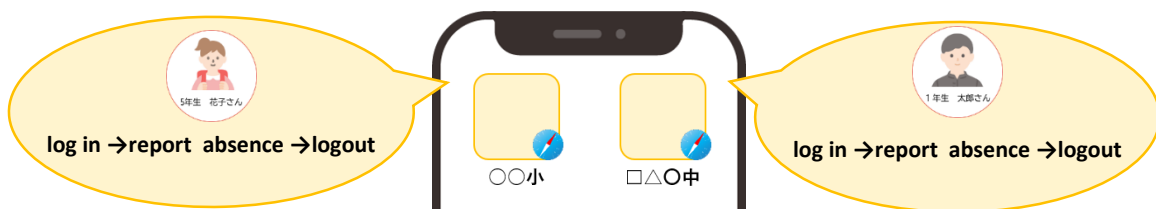

③ Follow the instructions below for 「太郎さん TARO SAN」  who is studying in junior high school to make your initial registration.

④ Scan the QR code for login which is on the lower left side of the Initial registration procedure. Display the login screen and add the Login screen to the home screen. **Change the name to your junior high school name.**

⑤ Be sure to log out after logging in to the elementary school, then log in to the junior high school.

※ Otherwise, the information you entered earlier will be remembered and you will not be able to log in correctly.

※ The example is Safari for iPhone. If you are using another browser and you do not know how to set it, please contact the help desk.

For iPhone Users

If you have children studying at different schools, you have 2 patterns

※ Since the URL to access differs for each school, be sure to follow one of the patterns below.

Pattern B Switching the Access Point Using Two Types of Browsers (Example) Safari and Chrome

① Follow the initial registration instructions for 「花子さん HANAKO SAN」 who is studying in elementary school to make your initial registration using  Safari.

② **login which is on the lower left side of the Initial registration procedure.** Display the login screen and add the Login screen to the home screen. **Change the name to your elementary school name.**

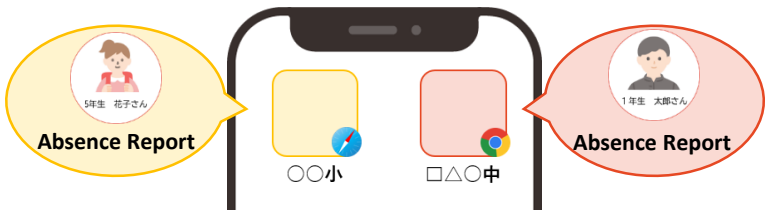

③ Follow the initial registration instructions for 「太郎さん TARO SAN」 who is studying in junior high school to make your initial registration using  Chrome.

④ **Scan the QR code for login which is on the lower left side of the Initial registration procedure.** Display the login screen and add the Login screen to the home screen. **Change the name to your junior high school name.**

※ If you want to add Chrome on the home screen, use the iPhone "Shortcut" app.. Please check the details from the QR code on the right.

⑤ Please use the respective shortcuts to report absence, etc.

※ The example is Safari and Chrome for iPhone. If you are using another browser and you do not know how to set it, please contact the help desk.
